The **ALT Series** offers increased focus, a fast response and an all-around alternative for many modern drumming styles. Our **LTD Series** has a unique, three-zone design that provides a combination of articulation and detonation and the **NRG Series** provides a powerful, high-frequency sound that's recommended for stage and studio.

The TRX **SFX Series** also expands the “High Contrast” tonal palette with a selection of new and unique sounds. **Thunder** and **Lightning** Crashes, Splashes and Chinas are available in several series and feature an exclusive, asymmetrical hole pattern that gives the cymbals a distinctive sound quality—providing a dramatic contrast to conventional cymbals. These cymbals can be used as effects, crashes, secondary crash-rides or as the top or bottom of hi-hats and stacks in many genres of music.

The selection of SFX “Special Effects” cymbals also consists of:

- Vented, multi-purpose **Stackers**
- **DRK/BRT** and **DRK/X** cross-matched Hi-Hats
- **Storm** (Thunder + Lightning) Hi-Hats
- **Storm** CLS Hi-Hats
- High-pitched, heavy-weight **T-Bells**
