Nasrine Rahmani

**D**eveloped in collaboration with world-renowned percussionist, music producer and educator Nasrine Rahmani and the master cymbalsmiths at TRX Cymbals, the new TOUCH Series is a collection of cymbals designed and custom-crafted to be played by hand. The cymbals are rich, warm, extremely sensitive to the touch and recommended for World, Latin, pop and many of today's modern music styles and situations.

Although **Nasrine Rahmani** had already established herself as an in-demand Latin percussionist in Melbourne, Australia, the multi-talented musician took a serious interest in the Cajon and relocated to Madrid, Spain so she could study with the Flamenco masters. She quickly became one of Europe's top hand-percussion artists. Today, Nasrine regularly tours and records with top artists of many genres, including Diego Guerrero, Antonia Jimenez, Jorge Pardo, Montse Cortes and Daniel Doña while teaching and performing at international music festivals. Nasrine recently recorded and released "Tu Compás Flamenco", an incredible album of authentic Flamenco percussion loops and backing tracks used by musicians, dancers and students all around the world.
